

# Study Equine

at Reaseheath

Industry focused,  
career ready

**Thanks for showing interest in our equine courses. We hope you enjoyed learning about our top class facilities, horses and staff, and how we can help you turn your passion in horses into a rewarding career.**

At Reaseheath Equestrian Centre we've just celebrated with students who have successfully completed their Further Education qualifications - most of whom are entering the industry or progressing into Higher Education. Now we're looking forward to welcoming the next intake of students to our highly commended BHS approved Training and Assessment Centre, which has stabling for over 60 horses and all the facilities you'd expect in a modern professional yard.

If you're thinking of joining us but haven't applied yet, it's better not to leave it too long as

we like to be fully prepared for you. If you have applied, we're looking forward to seeing you at enrolment.

**Here's a quick reminder of what's waiting for you!**

**Although you'll have fun while learning, our main aim is to ensure you leave with the practical skills and theoretical knowledge that employers require. Many of our activities are unique to us and are superb additions to your CV.**

### **Horse of the Year Show arena party**

Reaseheath is privileged to provide this key service at the world's most famous equine event. HOYS organisers value our students' enthusiasm, high standards and work ethic and as a result we have been invited to fulfil this role for the past 12 years.

All students can apply. Those selected enjoy an action packed week assisting international show jumping course designers and builders, supporting high level dressage, pony club and driving competitions, and meeting elite riders and trainers.

We also provide arena parties and event support for British Eventing, The British Dressage National Championships and

other high profile competitions across the north west.

### **Shows and events**

We run our own schedule of affiliated and unaffiliated competitions in dressage, showing, show jumping and combined training, all supported by students. We also provide opportunities for students to train and compete in inter-college and National Schools Equestrian Competitions.

## Lecture demonstrations

We host elite equestrian athletes for public demonstrations. These have included members of the British squad at the upcoming 2024 Olympics such as Eventing World Champion Ros Canter, show jumpers Ben Maher and Joe Stockdale and Chinese eventer Alex Hua Tian.

## Work placements

We work with leading industry employers to ensure you develop key technical career skills and provide immersive industry experiences at a range of leading equine businesses.

## Riding for the Disabled

A permanent centre for the Nantwich & District Riding for the Disabled Group was officially opened at our Equestrian Centre

earlier this year by HRH The Princess Royal. Students can volunteer for this leading charity or train to become coaches.

## BHS Assessments

We are a British Horse Society Training and Assessment Centre and encourage our students to gain additional BHS qualifications alongside their studies to help develop their careers.

# Your horse can come too!

We offer a wide range of livery packages, from DIY to full working livery (subject to suitability), so you could bring your own horse with you. This enables you to concentrate on your studies, knowing he or she is receiving the highest standards of professional care.

## No horse? No problem!

We have a wide variety of horses and a team of experienced coaches to help you develop your knowledge and practical ability. This allows every student to develop confidence and practical skills without pressure. There's also the opportunity for a 1:1 with staff or you could have a session on our riding simulator.

## You don't even have to ride

You could focus on equine management, competition

grooming, equine science, rehabilitation, business management or rural events management.

## We're a University Centre too

The equine degrees offered through University Centre Reaseheath allow you to specialise in growth areas such as equine behaviour and welfare, bio-veterinary science, sports performance or training and rehabilitation.

# A word from past students

“ Without studying at Reaseheath, I wouldn't be where I am today. My experience as a top level groom inspired the development of my own equine clothing company. I applied all the knowledge and skills I acquired at Reaseheath to support the business's development.

## Suzannah Offley

- Level 3 Extended Diploma in Equine Management 2019
- Owner and Managing Director, Missy.Hollins Equestrian

“ Our Reaseheath education prepared us well for taking over the family business and played a big part in our success. The diverse curriculum and enrichment opportunities enhanced our practical skills and knowledge, influencing the way we manage and produce our horses to the highest possible standards.

## Jack and Harry Moore

- Level 3 Extended Diploma in Horse Management 2016 / 2018
- BSc Equine Science and Sports Performance 2018 / 2020
- Show Horse Producers
